**New Horizons STEM Experience** brings participants into the scientific work-force to explore careers in STEM fields. Our field-based programs are highly-unique offering participants the opportunity to meet real industry people, to experience behind-the-scenes scientific innovations/research and development, and promotes participant leadership and peer networking. Participants explore university programs and learn what it takes to be future scientific all-stars through collegiate access. Program is open to rising 7-10 grade students and conducted in collaboration with Chelmsford Community Education a division of Chelmsford Public Schools. Participants get custom shirts, certificate of completion, and attend an end-of-week banquet.

### Program Participants:

INTERCONTINENTAL  
NUCLEAR INSTITUTE

SCIENCE EDUCATION
